

Welcome to the KBC "Affiliate Beauty Experience" program

The program is designed for bloggers, influencers, makeup artists, Youtubers, and anyone interested in beauty.

The phases of our program:

1. Find the product you're interested in

2. Test your product and review it

3. Share it with your followers with traceable links

4. Reach your goal

5. Request your free product and get a commission for your activities

Our program allows us to select the best beauty artists who really want to share their beauty experience and not just to receive free products.

For this reason we have designed our program.

It is simple and intuitive.

Would you like to get free products to sponsor?

1. Sign up for our **affiliate program**
2. Purchase the products you want from KBC with the discount code we will send you after joining.
3. Generate links to the products you want to sponsor and share them with people you can influence, such as followers.

How do you get the free products?

If you share the links and earn a commission as a reward for your activities, you will receive one or more additional free products at the same amount as your commission.

- You will receive a commission on all orders sold through your link.
- When your commission reaches € 10 (or \$ 10), you can purchase products for free on our shopping mall that are equivalent to the amount of your commission.
- In other words, this means if the fee is \$100, you can earn \$200 because you can also buy our products for free up to \$100.

You and we can monitor together the orders that will be made through your links.

Practical example:

After making your first purchase on KBC using the discount code that we have sent you, then post the product information of KBC with tracking links generated from our affiliate platform on your Facebook.

Let's assume that 100 people click on this post a month, and two of them have purchased a product for € 200.

A commission of € 20 will be paid to you in this case.

Later that month, when KBC sends your commission to your PayPal account, the KBC will ask you to choose additional product worth \$20.

Basically, you will receive your commission plus free products.

At this point the link click count and commission amount will be initialized to start from 0 again.

What you need to do is start with the purchase of a product of your choice with the discount code that you will receive after registering.

Once you receive the product, share your links with others using social medias, such as Facebook, Instagram, and Twitter so that the links can be clicked as much as possible.

The links must be generated by our affiliate platform.

We will pay your commission on your PayPal account every month.

More than 100 beauty experts are enrolled in our affiliate program!

Over 1000 free products per year!

What are you waiting for?
